

CRATE TIPPER

SMOOTH AND EFFORTLESS TILTING

HELP IN EVERYDAY WORK

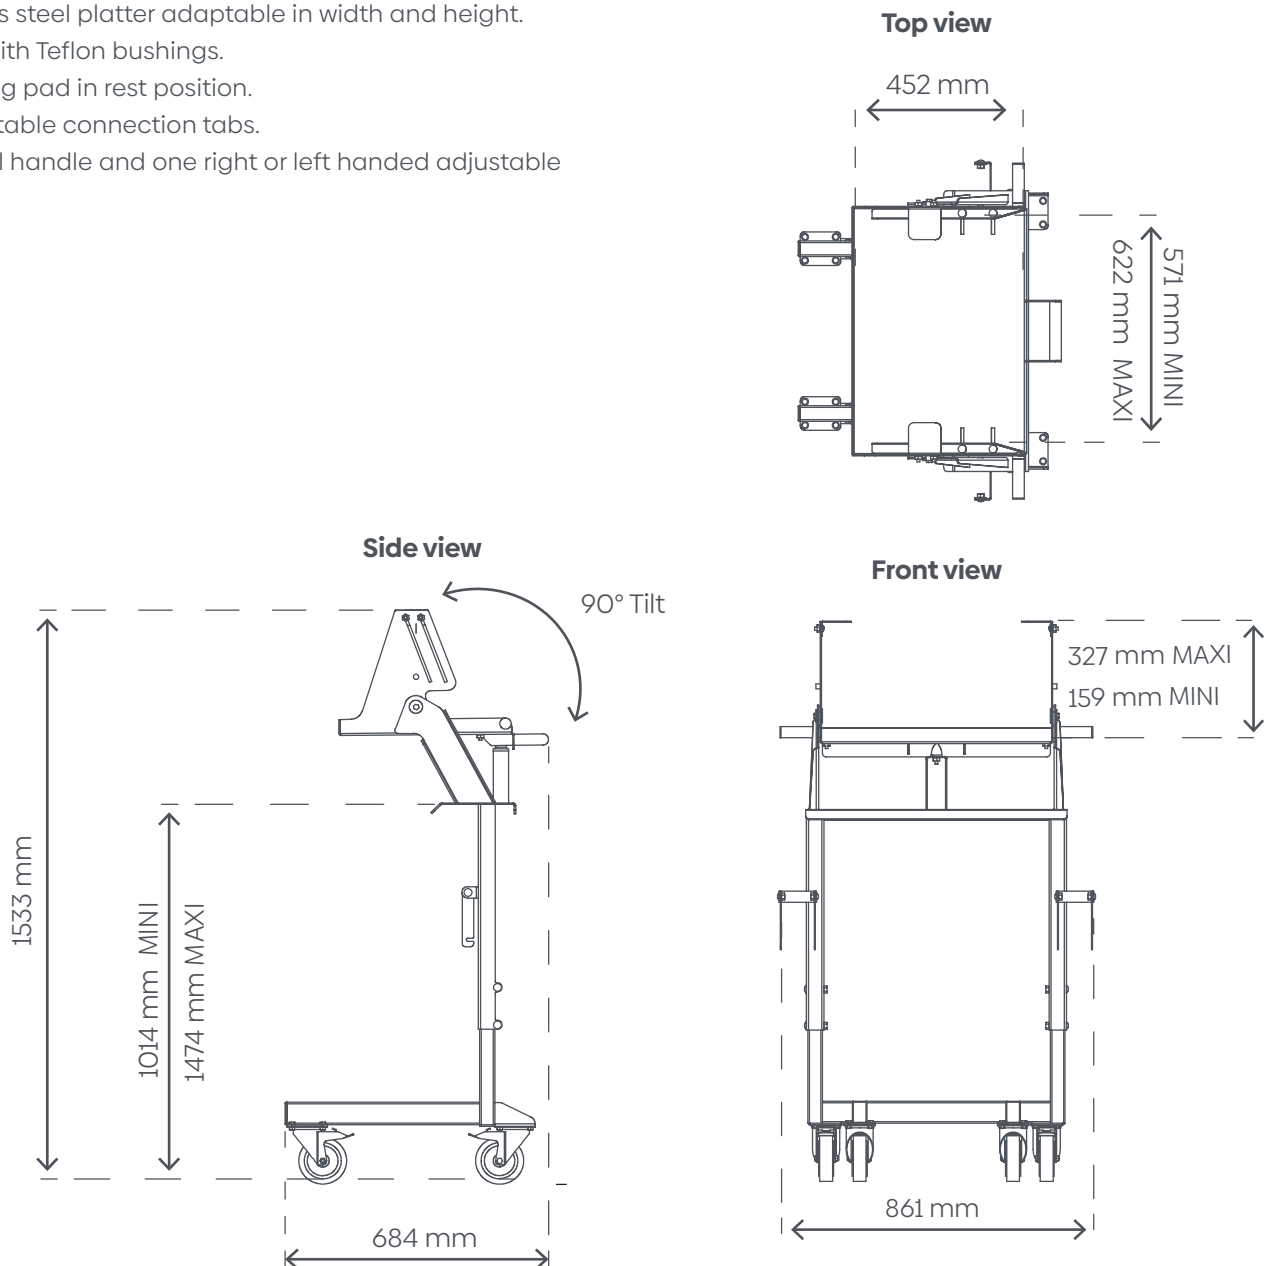

The crate tipper offers adjustment possibilities for the tilting part to adapt to all types of crates. Thus, it helps the operator in their daily tasks by reducing their workload.

COMPOSITION

- ▶ 304 stainless steel microblasted metalwork.
- ▶ Self-supporting structure.
- ▶ Stainless steel height adjustable feet on castors with rubber wheels.
- ▶ Stainless steel platter adaptable in width and height.
- ▶ Pivots with Teflon bushings.
- ▶ Damping pad in rest position.
- ▶ Sorting table connection tabs.
- ▶ 1 central handle and one right or left handed adjustable handle.

ADVANTAGES

- ▶ The ease of tilting makes it possible to effortlessly keep the crate tilted while emptying.
- ▶ The tilting mechanism can be adjusted to fit all types of crates.
- ▶ The wheeled chassis makes it completely mobile.
- ▶ The tilting mechanism can be operated by the front or side handles.
